

Release Notes for GSS 1972-2018 Release 2
(December 2019)

GSS Year Affected	Variable	Issue in the Previous Release	Fix in the Current Release
2018	ADMINCONSENT	No issue	We added a new variable whether respondents agreed on administrative data linkage
1982	CONRINC	The midpoint value of the top income category was \$121,359. We found this value not accurate because we did not exclude the oversampled black cases when calculating it.	We corrected the value to \$118,779.
1987	CONRINC	The midpoint value of the top income category was \$113,902. We found this value not accurate because we did not exclude the oversampled black cases when calculating it.	We corrected the value to \$114,337.
1993	REALINC	The midpoint value of the top income category was \$110,160. We found this value not accurate using the method documented in Methodological Report 64.	We corrected the value to \$103,880.
1993	REALRINC	The midpoint value of the top income category was \$100,496. We found this value not accurate using the method documented in Methodological Report 64.	We corrected the value to \$123,611.
1996	REALINC	The midpoint value of the top income category was \$94,853. We found this value not accurate using the method documented in Methodological Report 64.	We corrected the value to \$102,565.
1996	REALRINC	The midpoint value of the top income category was \$92,692. We found this value not accurate using the method documented in Methodological Report 64.	We corrected the value to \$87,419.
2008	REALINC	RELINC did not match with INCOME06 in some cases	We fixed the values corresponding to INCOME06
2010	CONINC	CONINC did not match with INCOME06 in some cases	We fixed the values corresponding to INCOME06
2010-16	RELHH1-14	Some cases were coded to incorrect relations to the head of household	Fixed to correct relations
2010-16	RELHHD1-14	Some cases were coded to incorrect relations to the head of household	Fixed to correct relations
2010-16	RELATE1-14	Some cases were coded to incorrect relations to the head of household	Fixed to correct relations
2010-16	RELSP1-14	Some cases were coded to incorrect relations to the spouse of the head of household	Fixed to correct relations
